MDC² specialises in developing,
sustainable modern logistics
facilities throughout Poland

MDC² is a Poland-based logistics and warehousing space developer and management company established in 2021 by seasoned commercial property professionals, Hadley Dean, Jeremy Cordery and Peter Love. The MDC² team currently includes 20 team members. The assembled team of MDC² partners has built over 3 million m² of warehouses over the last 15 years. The company develops, markets and manages sustainable modern logistics buildings in Poland – the 2nd fastest growing logistics market in Europe. MDC² focus is put on the Polish market, on single asset base as well as a strong team with the routes of building and marketing the logistics and warehouse projects for the last 20 years.
